## Crane control unit

# KST 6 swiveling

The KST 6 is an ergonomically designed swiveling crane control chair which provides a high degree of comfort.

#### Equipment boxes:

The sheet steel equipment boxes are vertically and horizontally adjustable. The arrangement of the joysticks, indicators and control devices is customised according to customer specifications.

Cabling is carried out through a cross-member in the traverse.

(Terminal block)

#### Driver seat:

As standard the KST 6 is fitted with a KFS 11 seat. The seat itself is fitted with a hydraulic vibration absorption system complete with weight adjustment to ensure that the comfort level is fitted with armrests and a headrest. There is the option to have the seat covered with air-permeable artificial leather.

#### Cross-member with swivel base:

The cover of the sheet steel cross-member including the driver's seat is forward foldable.

Thereby all wirings, terminals and bushings are easily accessible during commissioning and maintenance.

Swivel base has zero-clearance bearing and can be locked by a friction brake.

#### Surface treatment:

Base coat and textured varnish Standard colour RAL 9011 black
